BIBLIOGRAPHIES AND LITERATURE
OF AGRICULTURE. BLA-1/1977.

U.S. DEPARTMENT OF AGRICULTURE
SCIENCE AND EDUCATION ADMINISTRATION
TECHNICAL INFORMATION SYSTEMS
BELTSVILLE, MARYLAND 20705

NOVEMBER 1978

With this issue, the Technical Information Systems, Science and Education Administration (SEA), U.S. Department of Agriculture, begins publication of a new series, Bibliographies and Literature of Agriculture.

Four U.S. Department of Agriculture agencies -- Agricultural Research Service (ARS), Cooperative State Research Service (CSRS), Extension Service (ES), and the National Agricultural Library (NAL) -- have been merged to form a new organization, the Science and Education Administration (SEA), U.S. Department of Agriculture. The five regional series of ARS, the CSRS series, the ES Circular, and the NAL Library List have been discontinued. If you subscribed to any of these discontinued series, you will continue to receive similar material from SEA as new series are established. Subscribers wishing to modify or stop mailings coming to them, should write the office whose name appears below. Please include the mailing label from this publication with your request.

Science and Education Administration, Bibliographies and Literature of Agriculture,
No. 1/1977, November 1978.

Published by Technical Information Systems, Science and Education Administration,
U.S. Department of Agriculture, Beltsville, Maryland 20705

PREFACE

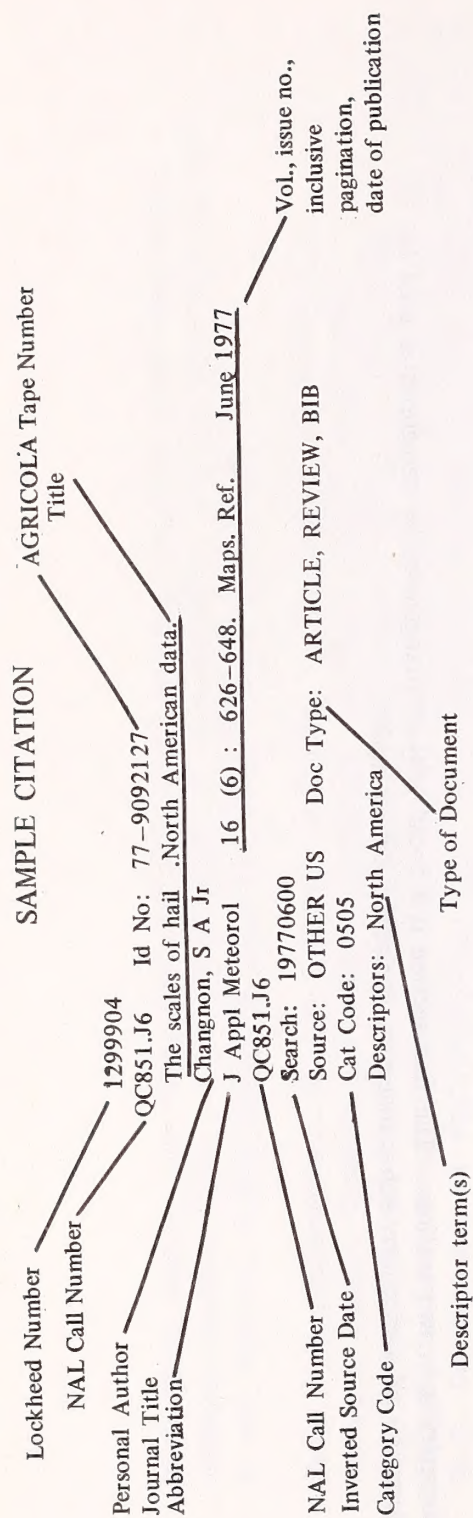

This publication is intended to be the first of an annual bibliography of agricultural bibliographies derived from AGRICOLA.

Citations were pulled from the AGRICOLA citation data base online. They represent:

- English language references only; foreign language titles were excluded in order to keep this publication to a manageable size.
- Items tagged "bib" or those citations found in a truncated search of "bibliograph." Generally those documents tagged as "bib" were selected which included bibliographic references equivalent to three pages. Exceptions were made when a smaller bibliography represented a substantive offering on a select subject.
- Literature received more than one year after publication is generally not indexed; exceptions are made for important scientific publications.

Citations from the Food and Nutrition Information and Educational Materials Center and from the American Agricultural Economics Documentation Center are excluded. Some duplication of citations occurs because the system requires separate indexing and cataloging entries for series publications.

The bibliography is in two sections. The first section is a broad subject arrangement by categories as used in *The Bibliography of Agriculture*; subarrangement is alphabetical by author.

User comments and suggestions for improvement are welcomed and should be forwarded to the compiler, Charles N. Bebee.

Richard A. Farley
Deputy Director
Technical Information Systems
Science and Education Administration
U.S. Department of Agriculture

AVAILABILITY OF REFERENCES CITED

The National Agricultural Library (NAL) offers two document delivery services to libraries, information centers, commercial organizations and individuals:

I. INTERLIBRARY LOAN SERVICE

NAL will loan monographs from its collection to any library in the United States. Individuals should request publications through their local public, school or special library. Excluded from loan are serials (except USDA serials), books in special collections such as Rare Books and Reference, and proceedings of meetings and conferences. Xerographic copy of microfilm will be supplied from non-circulating material at the expense of the borrowing library when that library so indicates on the ALA Interlibrary Loan form (See RATES under PHOTODUPLICATION SERVICE below).

1. Form : The American Library Association's (ALA) Interlibrary Loan Request form is preferred. Citations should be as complete as possible and the source of reference should be provided if known. Please use one form for each item requested. TWX requests are accepted. NAL's number is 710-828-0506.
2. Loan Period and Renewals : Material is loaned for 30 days from the date it is charged at NAL. Renewals should be requested by phone (301-344-3761).
3. Delivery and Returns : All loans will be sent first class and should be returned in the same manner. The borrowing library is responsible from the moment of dispatch for any loss or damage incurred.

II. PHOTODUPLICATION SERVICE

Reproductions of journal articles, technical papers, reports, etc. in the NAL collection may be purchased as outlined below:

1. Form : Please use USDA Request for Photocopying forms (LF-607). These forms are available from NAL upon request.
Use one for each citation. Requests should be as complete as possible with a minimum of abbreviation. Indicate whether xerographic copy or microfilm is desired and sign each order form. If an alternate form is used, please send in triplicate.
2. Rate : (Subject to increase)
Xerographic Copy: \$2.00 for each 10 pages of fraction copied from a single article or book.
Microfilm (35mm): \$1.00 for each 30 pages or fraction copied from a single article or book.
3. Payment : Users with heavy or continuous volume may request monthly billing or pay for requests with NAL coupons. These coupons may be purchased in any quantity at \$1.00 each. Payment (check or money order payable to the National Agricultural Library) must accompany NAL coupon orders. Attach the necessary number of coupons to each LF-607 submitted. Occasional or one time users should enclose a check or money order with each request or group of requests.
4. Restrictions : Reproductions will be made only from material in the NAL collection. Monographs will not be copied in their entirety (see Interlibrary Loan Service above). Special arrangements must be made for microfilm of entire issues or long runs of a journal title.

Requests for the services described above should be sent to: U.S. Department of Agriculture, National Agricultural Library, Lending Division, Beltsville, Maryland 20705. Questions concerning these services should be directed to the attention of the Chief, Lending Division.
NOTE: USDA EMPLOYEES RECEIVE FREE SERVICE AND SHOULD NOT SUBMIT REQUESTS ON THE FORMS DESCRIBED ABOVE.
